DETAILED ACTION

1. Receipt is acknowledged of the amendment filed on November 28, 2007, which has been fully considered in this action.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 18-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Galloway.

Galloway discloses a combination container and applicator comprising a container 16; and an applicator/tube 14 which is arranged to be magnetically attracted to the container by the tube receiver 12/28, except for the applicator/tube being formed of material constructed and arranged to be magnetically attracted to the container. It would have been obvious to one having ordinary skill in the art at the time the invention was made to form the applicator/tube of Galloway of a material constructed and arranged to be magnetically attracted to the container, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416. In the case of Galloway, the reference teaches magnetically adhering an applicator/tube to the outside of a container and to make the applicator/tube out of

the material constructed and arranged to be magnetically attracted to the container would reduce the number of parts and the apparatus would perform equally as well.

Response to Arguments

4. Applicant's arguments with respect to claims 18-28 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
